TKT
PREPARATION
TEACHING KNOWLEDGE TEST

TKT PREPARATION COURSE OUTLINE

TKT Core and Practical (Teaching Knowledge Test with added practical experience) is a Cambridge English exam that assesses the theoretical and practical skills of teachers.

The course covers the three core modules of the TKT exam and also includes teaching practice.

This exam, for new graduates and teachers in primary, lower and upper secondary schools, is aimed both at teachers with many years of experience and entering the world of teaching.

Calliope offers teachers a specific preparation course for the TKT + TKT Practical exam.

The final grade of the practical exam will be based on two lesson observations and the accompanying lesson plans.

This course will increase the participants' confidence as teachers of English, and improve their employment prospects.

INSTRUCTIONAL METHODS

The instructional methods which are to be used are of a participative nature, as opposed to simply disseminating information.

The participants will be actively involved in the learning process:

- Workshops
- Videos and discussion
- Research / reading, sharing information and discussion
- Demonstrations by the trainer and by participants when appropriate (what to do...what NOT to do)
- Situation simulations
- Class discussion/Virtual discussions on dedicated Facebook group
- Individual/group projects
- Quizzes in the form of games / Kahoot (real time internet quizzes)
- Mock Test at the end of each module
- Teaching integration and practice in real classes

MODULE OBJECTIVES

1 | BACKGROUND TO LANGUAGE TEACHING

12 hours

Results: Knowledge of teaching terminology, methods and approaches.

Skills Developed:

- Understand and communicate using standard ELT terminology.
- Understand teaching approaches and methods.

2 | PLANNING FOR LANGUAGE TEACHING

12 hours

Results: Knowledge of a range of lesson planning methods.

Skills Developed:

- Ability to create effective lesson plans for a range of situations.

3 | CLASSROOM MANAGEMENT

12 hours

Results: Theoretical knowledge of classroom management methods and skills.

Skills Developed:

- Understanding why a classroom functions or doesn't and how to effectively deal with learners.

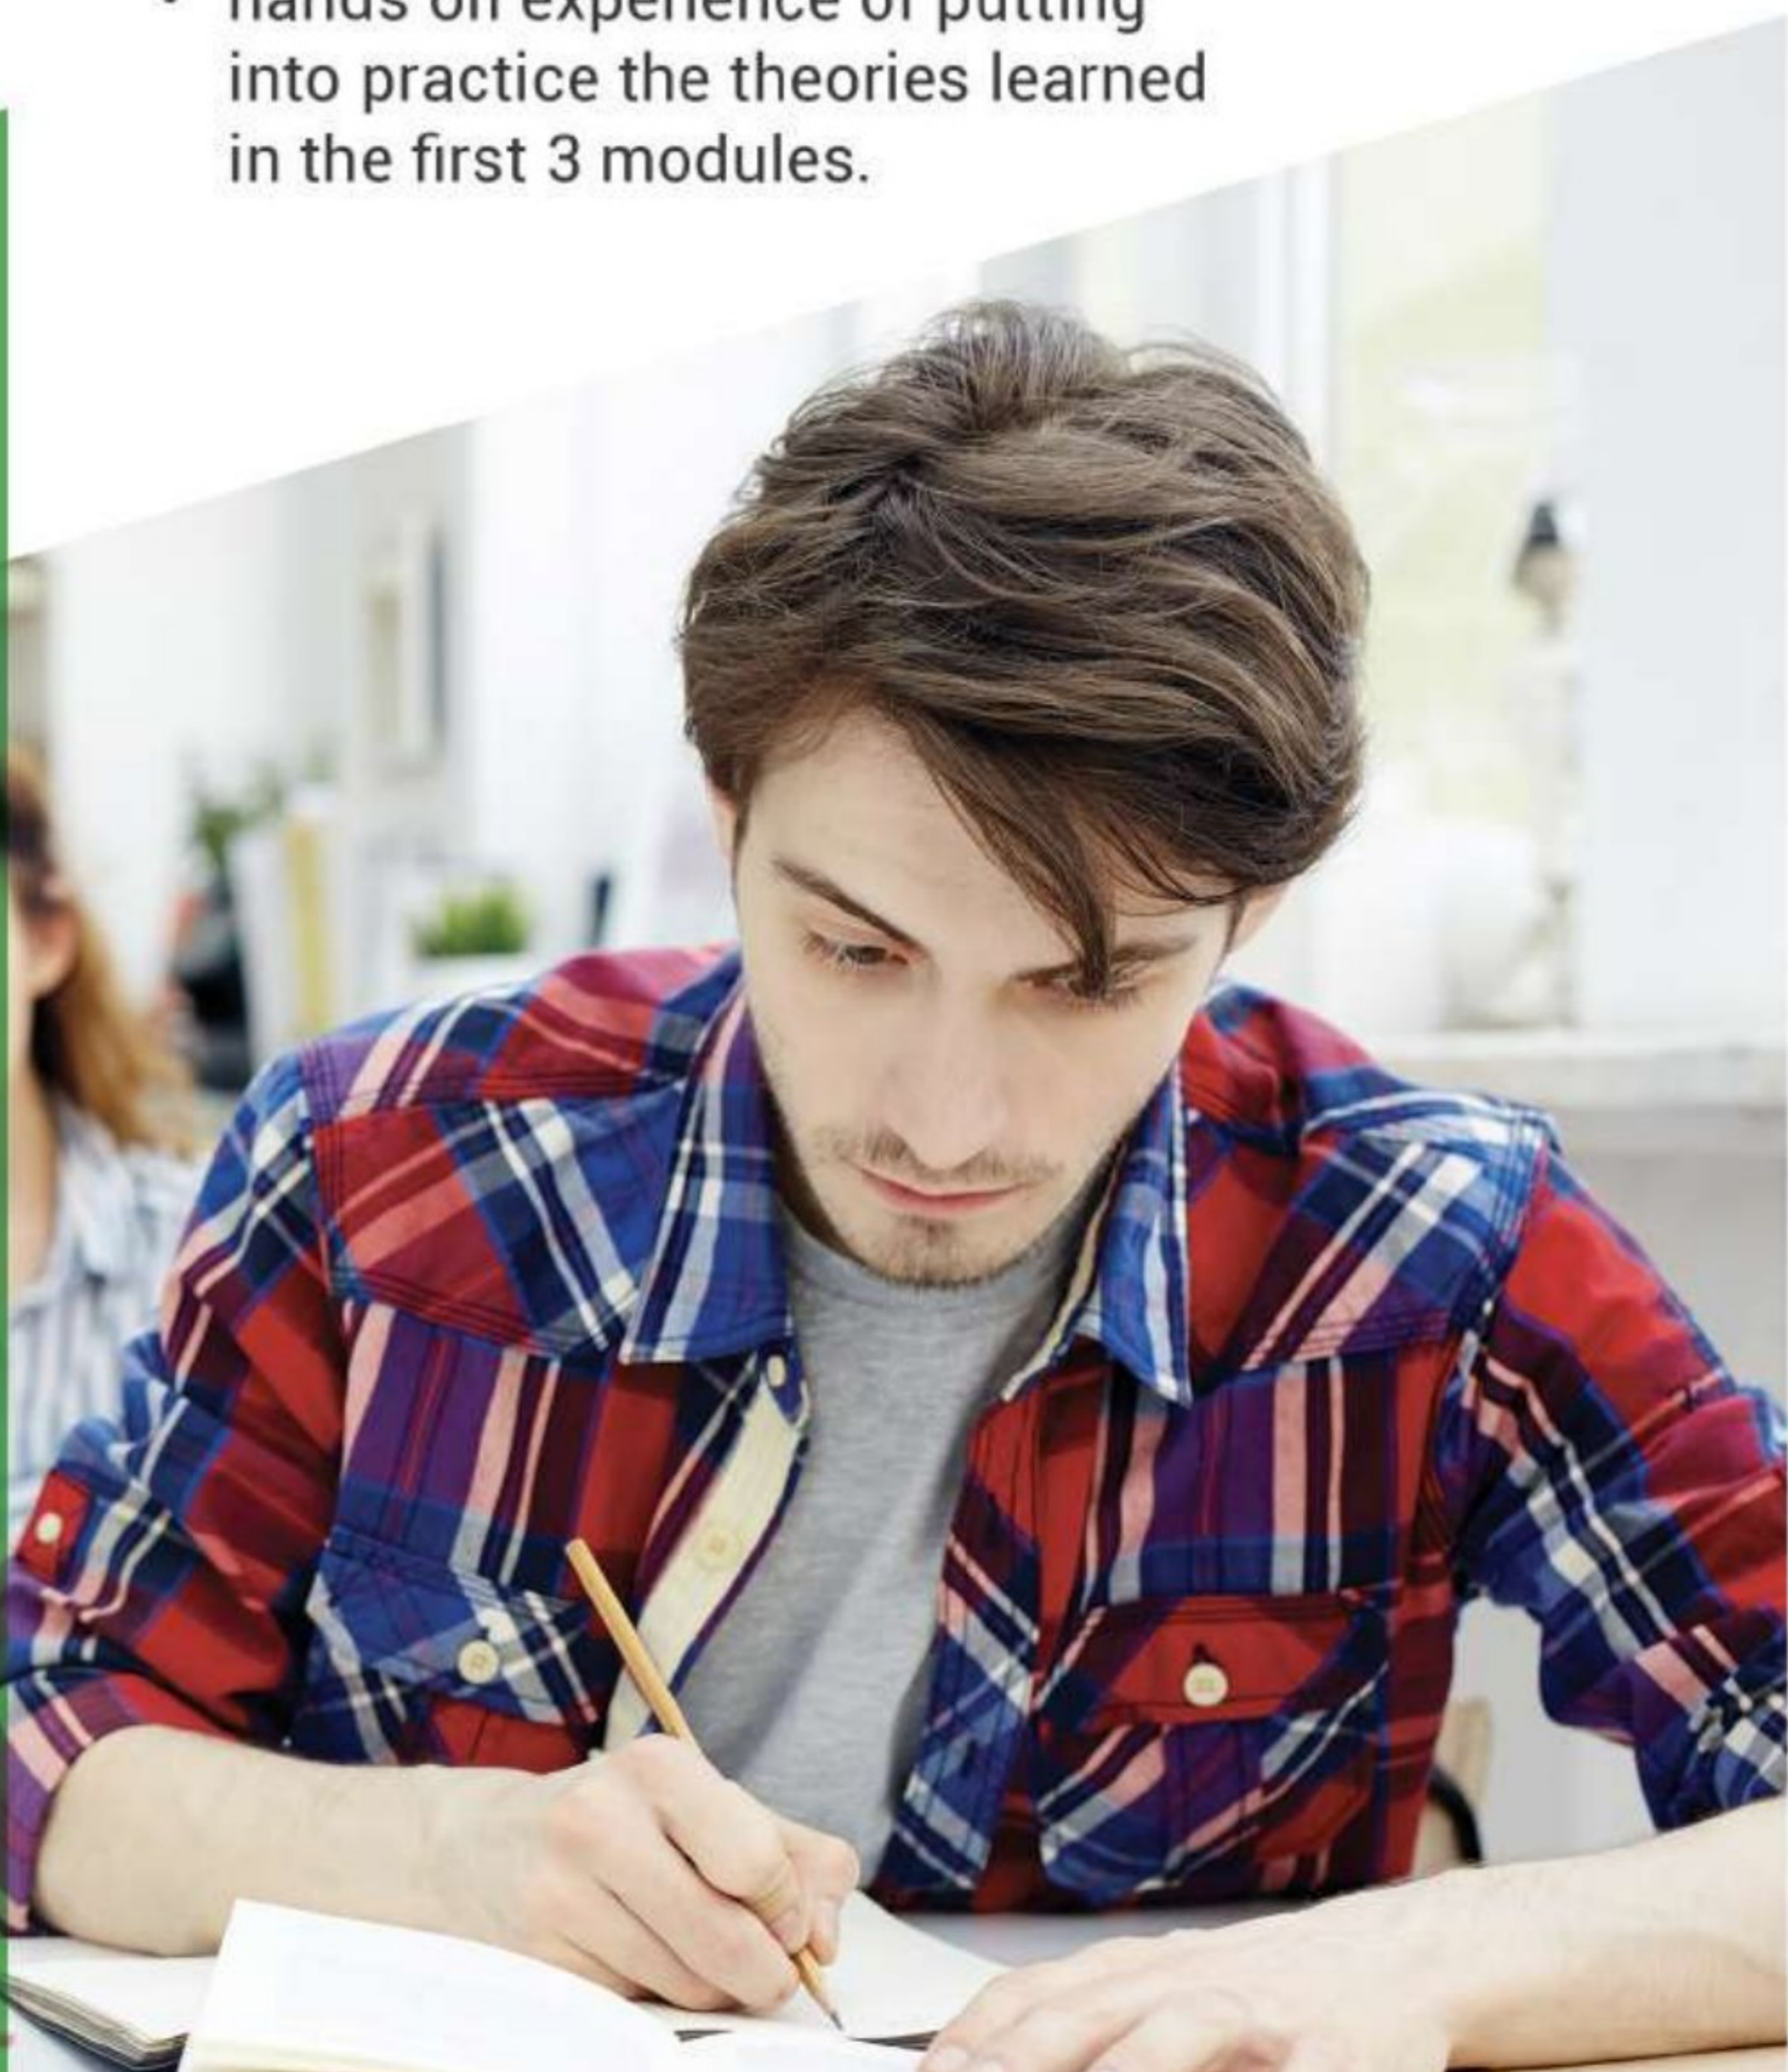

4 | PRACTICUM OPTIONAL

3 hours of class attendance and 3 hours of teaching practice in real classes

Results: Real class practice of teaching, lesson planning, and classroom management.

Skills Developed:

- hands on experience of putting into practice the theories learned in the first 3 modules.
